Lanserhof Lans

After the successful opening of the Lanserhof Lake Tegern in 2014 – one of the most modern health centers in Europe – Lanserhof in the Austrian province of Lans is undergoing Major expansion. From May to December 2016, ingenhoven architects are renovating the Lanserhof, which is based on the LANS Med Concept. In addition to the redevelopment of the existing building, a modern, oval new building with 16 rooms and suites will be built south of the main house. In January 2017 the extension building will open its doors.
